ASL NEWSLETTER

January 2003

- **In Memoriam: Richard Jeffrey.** Richard Jeffrey, professor of philosophy emeritus, Princeton University, died November 9, 2002 after a long battle with cancer. He was 76. An expert in probability and decision theory, Jeffrey joined the faculty at Princeton in 1974. He remained there until his retirement in 1999, whereupon he became a regular part-time visiting distinguished professor of logic and philosophy of science at the University of California-Irvine.

Jeffrey earned his Ph.D. in philosophy at Princeton in 1957. A World War II Navy veteran, he received an M.A. from the University of Chicago in 1952. He was a research engineer, a Fulbright Scholar, and an assistant professor of electrical engineering before starting his career teaching philosophy at Stanford University in 1959. He served as a visiting faculty member at the Institute for Advanced Study and at Princeton in 1963-64, and taught at the City College of New York and at the University of Pennsylvania before returning to Princeton as a professor of philosophy.

The author of several books and numerous articles, Jeffrey presented a new theory of decision-making under uncertainty and of probable knowledge in his book, *The Logic of Decision* (1965). He further developed these themes in *Probability and the Art of Judgment* (1992). His textbook, *Computability and Logic* (co-authored with George Boolos, 1974), bridged the gap between general books on logic and treatises written for mathematicians. The more elementary text, *Formal Logic: Its Scope and Limits* (1967) popularized the tree-method of testing unsatisfiability. *Probability and the Art of Judgment* (1992) collected many of his essays. He completed his last book, *Subjective Probability: The Real Thing*, the day before his death.

Jeffrey was elected to the American Academy of Arts and Sciences in 1994, and he served as president of the Philosophy of Science Association from 1999 to 2000.

- **The 2002 ASL Election.** The ASL membership has elected Stewart Shapiro (Ohio State) and Frank Wagner (Univ. Claude Bernard, Lyon) to the Executive Committee, and Klaus Ambos-Spies (Heidelberg) and Mirna Dzamonja (East Anglia) to the Council. Their terms of office are for three years beginning January 1, 2003. The Nominating Committee consisted of John Burgess, Jan Krajíček, Manuel Lerman (Chair), H. Dugald Macpherson, Gila Sher, and John Steel.
- **Access to Current JSL and BSL for ASL Members via Project Euclid.** Access to the full-text of current issues of *The Bulletin of Symbolic Logic* and *The Journal of Symbolic Logic* will be available to all ASL members via Project Euclid, beginning in March 2003. Individual members who wish to gain access (beginning in March) should follow these instructions: (1) Go to <http://projecteuclid.org>; (2) Click on 'login' in the top menu bar; (3) Click on "create a profile here" in the center of the login page; (4) Fill in at least the required fields (those in red) in the top half of the form, setting Euclid ID and Password to anything you wish, but remember these for future logins; (5) Go to the bottom half of the form ("Personal Subscription Registration"); (6) Select the *Bulletin of Symbolic Logic* and the *Journal of Symbolic Logic*, and for each enter your individual membership ID number (you will find this number on your journal mailing label, near the barcode); (7) At the bottom of the form, click the 'Create Profile' button, at which point users should then see a confirmation screen and should have access to full-content of the BSL and JSL. If you need help obtaining your membership ID number, contact Paul Arroyo of the University of Illinois Press at parroyo@uillinois.edu. If you have any trouble using the Personal Subscription Registration form, please contact Euclid-L@cornell.edu.
- **Perspectives in Mathematical Logic Volumes Available.** This series is now being published by the Association for Symbolic Logic, under the new name *Perspectives in Logic*. Owing to the generosity of Springer-

Verlag, the former publisher of the series, the ASL has recently made the existing stock of certain books in the series available to the logic community at low prices, as has been done with the *Lecture Notes in Logic*. (Some books in the series will continue to be made available by Springer-Verlag and others will be reprinted by ASL.) An order form for the volumes sold by the ASL can be found online at <http://www.aslonline.org/files/Perspectivesorderform.pdf>. This form also can be obtained by writing to the ASL Business Office.
